CONTENTS OF VOLUME 10

No. 1, Spring, 1978

Hormonal and metabolic responses to exercise in subjects of high and low work capacities
John R. Sutton 1

A comparison of continuous and intermittent progressive multistage exercise testing
Paul S. Fardy and Herman K. Hellerstein 7

The effect of weight lifting exercise on heart rate and metabolism in experienced weight lifters
J. Keul, G. Haralambie, M. Bruder and H.-J. Gottstein 13

Specificity of run training on $\dot{V}O_2$ max and heart rate changes during running and swimming
William D. McArdle, John R. Magel, Daniel J. Delio, Michael Toner and Julianne M. Chase 16

Lower extremity forces and torques during systematic variation of non-weight bearing motion
Ronald F. Zernicke and Elizabeth M. Roberts 21

Effects of pedalling rate changes of maximal oxygen uptake and perceived effort during bicycle ergometer work
Robert J. Moffatt and Bryant J. Stamford 27

Abstracts of the 25th Annual Meeting of the American College of Sports Medicine 33

Author Index to Abstracts of the 25th Annual Meeting 34

Policy Statement Regarding the Use of Human Subjects and Informed Consent xii

Information for Authors xiv

No. 2, Summer, 1978

Effects of arm training on retention of training effects derived from leg training
Russell R. Pate, R. David Hughes, Joe V. Chandler, and J. Laraine Ratliffe 71

Energy cost of circuit weight training
Jack H. Wilmore, Richard B. Parr, Paul Ward, Paul A. Vodak, Thomas J. Barstow, Thomas V. Pipes, Glen Grimditch and Phyllis Leslie 75

Physiological alterations consequent to circuit weight training
Jack H. Wilmore, Richard B. Parr, Robert N. Girandola, Paul Ward, Paul A. Vodak, Thomas J. Barstow, Thomas V. Pipes, Gary T. Romero and Phyllis Leslie 79

Muscle glycogen depletion and lactate concentration during downhill skiing
Per Tesch, Lars Larsson, Anders Eriksson and Jan Karlsson 85

Performance and efficiency of intercollegiate cross-country skiers
V. Niinimaa, M. Dyon and R. J. Shephard 91

Football fatalities in actuarial perspective
Kenneth S. Clarke and Allan Braslow 94

Physical estimation and attraction scales: rationale and research
Robert J. Sonstroem 97

Factors related to competitive stress among male youth sport participants
Tara K. Scanlan and Michael W. Passer 103

Recovery of muscular endurance following submaximal, isometric exercise
G. Alan Stull and Jay T. Kearney 109

The effect of blood infusion upon endurance capacity and ratings of perceived exertion
Melvin H. Williams, Mary Lindhjem, and Rudolf Schuster 113

The effects of a collegiate wrestling season on body composition, cardiovascular fitness and muscular strength and endurance
J. M. Kelly, B. A. Gorney and K. K. Kalm 119

Frequency and intensity of exercise training for elderly subjects
K. H. Sidney and Roy J. Shephard 125

Caloric cost of walking and running
Gilbert W. Fellingham, Elmo S. Roundy, A. Garth Fisher and G. Rex Bryce 132

The marathon: a history and review of the literature
M. B. Maron and S. M. Horvath 137

Policy statement regarding the use of human subjects and informed consent ix

Information for authors xi

No. 3, Fall, 1978

Position Statement on The Recommended Quantity and Quality of Exercise for Developing and Maintaining Fitness in Healthy Adults vii

Maximal oxygen uptake and muscle fiber types in trained and untrained humans
Ulf Bergh, Alf Thorstensson, Bertil Sjödin, Bodil Hulten, Karin Piehl and Jan Karlsson 151

Effects of caffeine ingestion on metabolism and exercise performance
D. L. Costill, G. P. Dalsky and W. J. Fink 155

Muscle force-velocity and power-velocity relationships under isokinetic loading
James J. Perrine and V. Reggie Edgerton 159

Effects of O_2 breathing on RQ, blood flow, and developed tension in in situ dog muscle
Brian A. Wilson and Wendell N. Stainsby 167

The effect of circuit weight training on strength, cardiorespiratory function, and body composition of adult men
Larry R. Gettman, John J. Ayres, Michael L. Pollock and Andrew Jackson 171

Effect of antecedent muscle tension levels on motor behavior
John P.J. Pinel and Terry D. Schultz 177

Glycogen depletion patterns during continuous and intermittent ice skating
H. J. Green 183

Urinary catecholamine excretion during competition in 11 to 23 year old hockey players
Cameron J. R. Blimkie, David A. Cunningham and Fred Y. Leung 188

Effect of experimental alterations in excess weight on aerobic capacity and distance running performance
K. J. Cureton, P. B. Sparling, B. W. Evans, S. M. Johnson, U. D. Kong and J. W. Purvis 194

Differences and changes in $\dot{V}_{O_2}$ among young runners 10 to 18 years of age
J. Daniels, N. Oldridge, F. Nagle and B. White 200

Cardiorespiratory alterations in 9 to 11 year old children following a season of competitive swimming
Paul Vaccaro and David H. Clarke 204

Field testing of cardiorespiratory fitness in primary school children
G. S. Krahenbuhl, R. P. Pangrazi, G. W. Petersen, L. N. Burkett and M. J. Schneider 208

Maximal and submaximal exercise in different positions
F. J. Diaz, R. D. Hagan, J. E. Wright and S. M. Horvath 214

Age at menarche and selected menstrual characteristics in athletes at different competitive levels and in different sports
Robert M. Malina, Waneen Wyrick Spirduso, Charlotte Tate and Ann M. Baylor 218

The effect of physical training on the serum iron levels of college-age women
John C. Wirth, Timothy G. Lohman, John P. Avallone, Jr., Tanya Shire and Richard A. Boileau 223

Force, Work, Power and Exercise
Howard G. Knuttgen 227

Information for Authors (revised May 1978) xi

Policy statement regarding the use of human subjects and informed consent xiii

No. 4, Winter, 1978

Metabolic responses of females to high intensity interval training of different frequencies
George R. Lesmes, Edward L. Fox, Carol Stevens, and Robert Otto 229

Maximal oxygen uptake in young women with training, inactivity, and retraining
Preben K. Pedersen and Kurt Jørgensen 233

Physiological responses of international female lacrosse players to pre-season conditioning
R. T. Withers 238

Anthropometric estimation of body density, fat, and lean body weight in women gymnasts
Wayne E. Sinning 243

Physiological responses of women to thermal stress: a review
Sarah A. Nunneley 250

Maximal oxygen uptake, heat tolerance and rectal temperature
E. Shvartz, Y. Shapiro, H. Birnfeld, and A. Magazanik 256

Utilization of stored elastic energy in leg extensor muscles by men and women
Paavo V. Komi and Carmelo Bosco 261

Muscle strength and power changes during maximal isokinetic training
George R. Lesmes, David L. Costill, Edward F. Coyle, and William J. Fink 266
